Article 11. Community Power Plan
To see if the Town will vote to adopt the Peterborough Community Power Plan pursuant to RSA 53-E:7, which authorizes the Select Board to develop and implement Peterborough Community Power as described therein. Under the Community Power Plan, the Town is authorized to buy electricity in bulk for its residents and businesses. The plan's goal is to help ratepayers save money on their electric bills, while also getting more energy from renewable sources. The plan will be self-funding, with no amount to be raised from taxation. Each ratepayer will be able to choose from among four optional rate tiers with varying percentages of renewable energy and rates, or they may opt-out of the plan if desired.
