School Board Goals 2022-2023

1. Strive to have enrollment of 45 students in the elementary school (keeping in mind the k-2, 3-5, 6-8 enrollment gaps for students)
2. Leverage the recreational aspects of the valley and its natural surroundings to distinguish ourselves from schools with traditional settings.
3. Be good stewards in the community by involving the community in the school activities and by having the school be involved in community activities.
