

# Greetings from North Country Council!

This year, North Country Council, along with the eight other RPCs in New Hampshire, are completing a **Regional Housing Needs Assessment**. We are seeking input from everyone throughout the region, including Coos, Northern Grafton, and Carroll Counties.

Housing is one of the most pressing issues for residents and businesses across the region.

As seniors look for ways to age-in-place and residents struggle to find housing near work, childcare, and basic services, we must work together to find new and innovative ways to make sure quality housing exists in all our communities. To do this, we must start by understanding how housing impacts our lives and livelihoods in the North Country.
